A NEW NAME
A NEW CONCEPT
OF SERVICE

WHO ARE WE?

We're LAMINATED PRODUCTS, INC.--
pioneer makers of cabinetry with laminated plastic surfaces, of Nevamar Carefree Kitchens, and of Professional Cabinets for dental, medical and institutional use. You see our products in leading magazine features, the World's Fair, Chicago Museum of Science & Industry, New York's Architectural Materials Center and overseas in traveling exhibits of the State Department.

NATIONAL INDUSTRIES

We're NATIONAL SCHOOL FURNITURE CO.--
serving educational facilities in all corners of the U.S. and abroad. A recent addition is a unique concept in modular cabinetry for churches...and National serves religious institutions, as well as schools and universities.

We're NATIONAL HOSPITAL FURNITURE--
builders of maintenence-free hospital equipment with laminated plastic surfacing. Our furniture, beds and casework serve hospitals, institutions and nursing homes.

We're NATIONAL STORE FIXTURE CO., INC.--
commercial and institutional seating and all types of tables. Our products serve in world famous restaurants, hotels, and institutions...and at the New York World's Fair.

NOW...we're NATIONAL INDUSTRIES, INC.---
combining the resources, the "know-how" of more than 40 years of service into a single unit, creating:

- ☆ A BROADER RANGE OF SERVICES
- ☆ AN EXPANDING RANGE OF PRODUCTS
- ☆ A UNIFORM STANDARD OF QUALITY... THE WORLD'S FINEST
- ☆ IMPROVED CUSTOMER SERVICE

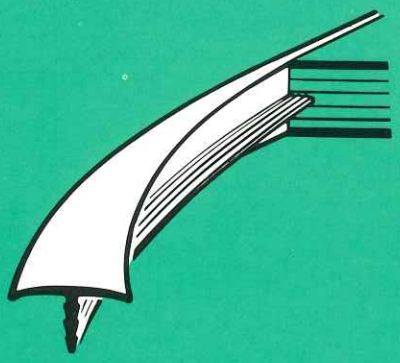
EXCLUSIVE QUALITY FEATURES

World pioneers in plastic laminates, National Industries, Inc. uses the finest high-pressure laminated melamine plastic which is time-tested under the most difficult conditions. Proven over many years of heavy usage...it is impervious to most stains, is truly maintenance-free, is virtually indestructible in normal use. Only National uses plastic laminates inside and outside...on all exposed surfaces.

Edges are sealed with Wynene plastic T-edging to seal out dust and moisture.

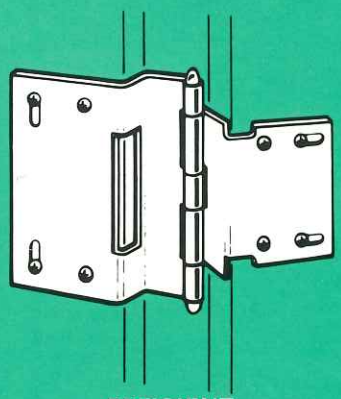
Nylon roller ball-bearing drawer slides, sturdy steel hinges, durable clip-construction brackets...every luxury operating feature and longer-wearing utility is incorporated into high quality National cabinetry.

- ☆ PLASTIC LAMINATED SURFACES ON INTERIORS AND EXTERIORS
- ☆ SANITARY "SEALED PANEL" CONSTRUCTION
- ☆ QUIET NYLON ROLLER BALL-BEARING DRAWER SLIDES
- ☆ VIRTUALLY MAINTENANCE-FREE
- ☆ SAFE ROUNDED CORNERS ON DOORS AND DRAWERS
- ☆ CHROME PLATED STEEL HINGES



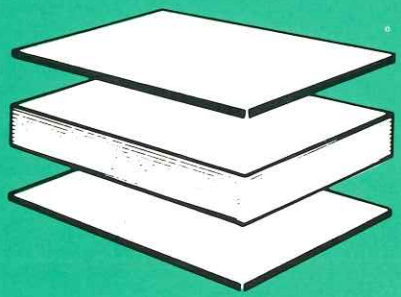
SANITARY

Edges sealed with Wynene plastic T-edging. With laminates on 2 sides, moisture & dirt can't penetrate.



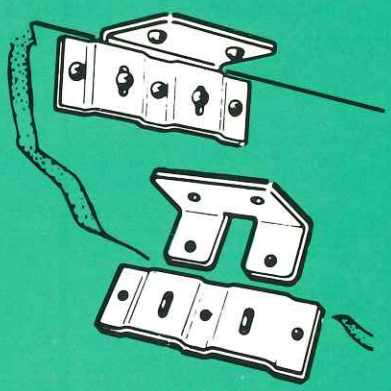
EFFICIENT

Specially designed hinges operate smoothly . . . silently. Magnetic door catches for positive closing.



TROUBLE-FREE

Laminated surfaces on all panels provide balanced construction . . . resists swelling or warping.



STURDY

Heavy-duty steel clip-construction bracket assures permanent strength and rigidity.

LIFETIME MAINTENANCE-FREE LAMINATED SURFACES INSIDE AND OUT

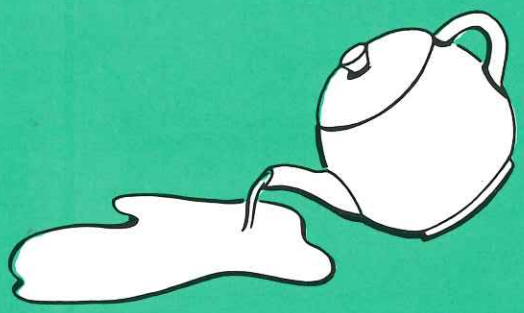
Surfaced with high-pressure laminated plastic with a remarkable resistance to wear. The handsome woodgrains are "built-in" for permanence...never need waxing or refinishing. Truly maintenance free material finishes both the interior and exterior on every exposed surface--even inside the drawers!

MOISTURE PROOF

Spilled liquids cannot harm National surfaces . . . remain on top until wiped up.

CHEMICAL RESISTANT

Highly resistant to most caustic chemicals . . . National surfaces last years longer!

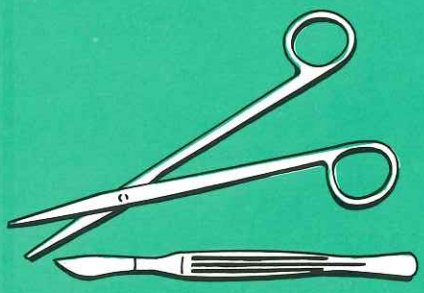


HEAT RESISTANT

Immune to relatively high heat. Even boiling water won't harm National finishes.

STAIN RESISTANT

Dirt cannot penetrate the sanitary, non porous surface. Even dried-on stains are easily removed.



SCRATCH RESISTANT

Super-hard finishes resist scratching . . . won't chip, dent, crack or peel in normal use.

GENERAL SPECIFICATIONS

In addition to describing the units specified herein, the following is intended as a guide for architects in preparing specifications for factory-built, pre-fabricated, plastic laminated cabinets and casework. All dimensions shown are nominal and all specifications are subject to change without notice.

1. STANDARDS

All units herein specified shall be as manufactured by Laminated Products Div., National Industries, Inc., Odenton, Maryland.

2. GENERAL CONDITIONS

All provisions of the "General Conditions" of the complete specifications shall be considered part of this section.

3. WORK INCLUDED

This section of the specifications shall include all materials, labor and equipment to provide and install the units specified herein and indicated on accompanying drawings. Sinks, fittings and fixtures attached directly to the casework shall be furnished as part of this equipment and installed under other sections.

4. WORK NOT INCLUDED

All plumbing, electrical, heating and ventilating work related to units in this section will be provided by others.

5. DRAWINGS AND SAMPLES

Shop drawings covering all cabinets and equipment specified herein shall be prepared by the contractor and submitted for architect's approval prior to fabrication.

Samples of laminate, edging, or other surfacing material shall be submitted for approval at the request of the architect.

6. MATERIALS

A. PLASTIC LAMINATE:

For casework, the plastic laminate shall be vertical surfacing grade .035 inch thick high-pressure melamine laminate. For counter tops, the plastic laminate shall be 1/16 inch thick high-pressure melamine laminate.

B. BEAUTILITE LAMINATE:

For casework interiors and exposed ends, the surfacing material shall be Beautilite melamine-impregnated laminate.

C. FLAKEBOARD CORE:

All 1/2" and 3/4" thick panel parts shall consist of three-ply, fine surfaced flakeboard: Density (lb./cu.ft.) average 45, Screw Holding (No.8 5/8" ms.) Edge – 325 lbs. Face – 350 lbs. Internal Bond Strength – 110 PSI, Modulus of Rupture – 3,500 PSI, Modulus of Elasticity – 500,000 PSI, Water Absorption 24 hrs. – 11% Thickness of Tolerance – plus or minus .005 inches.

D. HARDBOARD CORE:

As used for sliding doors under 48" in height, the core shall be 3/16" minimum thickness hardboard, laminated both sides with plastic laminate.

7. HARDWARE

A. HINGES:

Steel, butt-type, wrap-around, tight pin hinge, 2-1/2" x 3-5/8" brushed chrome finish, three hinges per door over 48" high.

B. DOOR CATCHES:

Ten pound pull, aluminum magnetic type (Weber Knapp No.6988 or equal). Two fourteen pound pull catches provided for tall cabinet doors.

C. DRAWER AND DOOR PULLS:

Anodized aluminum rounded bar type, secured with machine screws from inside.

D. CASTERS:

Heavy duty type, rubber wheels, with ball-bearing swivel (Bassick or equal.) Each mobile cabinet to have two casters provided with brakes, two without.

E. DRAWER SLIDES:

Steel slides with nylon ball-bearing rollers (Knape & Vogt No.1300 or equal). Slides shall have positive stop, cabinet drawers equipped with rubber bumpers.

F. SHELF ADJUSTMENT:

Adjustable shelf standards, aluminum (Knape & Vogt No.255 or equal).

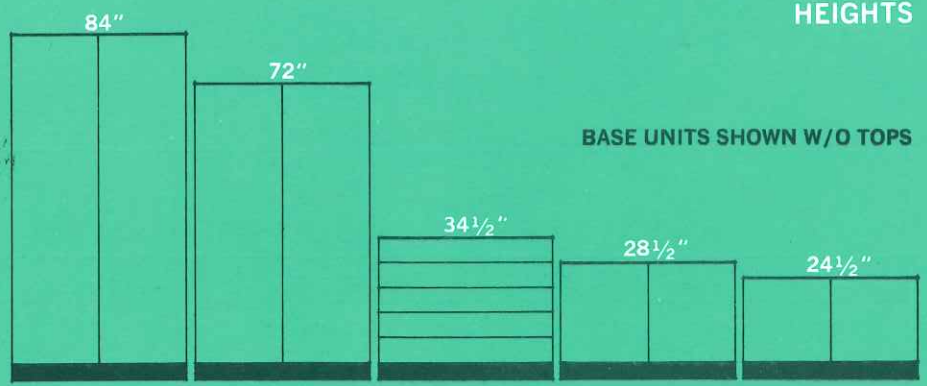
G. HANGER RODS:

For wardrobe compartments, shall be 1-1/4" diameter chrome plated steel tubing.

H. LOCKS:

Solid bronze, cylinder type, pin tumbler (National Lock No.68106 or equal.) Cabinets with locks shall be keyed alike if desired.

HEIGHTS



BASE UNITS SHOWN W/O TOPS

CABINETS ARE OFFERED IN A VARIETY OF STANDARD HEIGHTS TO SUIT EVERY APPLICATION AND AGE LEVEL.

I. LEVELERS:
For cabinets 72'' high and larger, four screw-stype levelers, adjustable from within cabinet.

J. SLIDING DOOR TRACK:
For cabinets 72'' high and larger with 3/4'' doors, formed zinc-plated steel overhead track, door mounting brackets with nylon ball-bearing rollers (Knape & Vogt Package Set No.858 or equal.) For glass and hardboard doors, specially designed extruded anodized aluminum track mounted on cabinet with KV-1097 nylon rollers in KV-1095 shoe mounted on door.

K. HINGED GLASS DOORS:
Glass to be mounted in cutout of standard 1/2'' door, using specially designed anodized aluminum extrustion frame. Removable frame member on inside of door facilitates glass replacement.

8. GENERAL CONSTRUCTION

A. GENERAL:
All parts factory prefinished Flush type fronts overlapping ends. Body panel joints shall be assembled with male and female copper-zinc plated hardware applied in such a manner so that a panel or part could be replaced by disengaging hardware and removing sheet metal screws from back of cabinet. Exposed ends shall be flush construction and shall match fronts. All exposed panel edges shall have extruded shock-proof ethyl-cellulose or butyrate tee-moulding applied to grooved edge. Backs of fixed cabinets shall be screwed into rabbetted ends with sheet metal screws 1-1/4'' long.

B. DOORS:
Hinged doors 48'' high and under shall be 1/2'' core, veneered both sides with plastic laminate to form 5/8'' thick doors, hinged with two butt-type, wrap-around hinges. Hinged doors over 48'' high shall be 3/4'' core, veneered both sides with plastic laminate to form 7/8'' thick doors, hinged with three butt-type, wrap-around hinges. Sliding doors 48'' high and under shall be 1/4'' with hardboard core, veneered both sides with plastic laminate. Sliding doors over 48'' high shall be 3/4'' core, veneered both sides with plastic laminate to form 7/8'' thick doors.

C. DRAWER FRONTS:
Shall be 1/2'' core, veneered both sides with plastic laminate, front panel attached to drawer body with sheet metal screws and countersunk head washers.

D. CABINET TOPS, BOTTOMS, ENDS, BACKS:
Shall be minimum 1/2'' thick core, finished in accordance with Section 9 below.

E. SHELVES:
In cabinets 36'' wide and over shall be 3/4'' core; under 36'' wide, 1/2'' core, finished in accordance with Section 9 below.

F. RECESSED TOES:
All panels shall be faced with black plastic laminate, or, upon request, with a pattern matching the cabinet fronts.

G. WALL CABINET DIMENSIONS:
All cabinet ends shall have a finished dimension, front to back, of 11-1/2'' to permit alignment of adjacent ends of full variety of types in one grouping. Hinged door cabinets shall finish over-all 12-1/4''; sliding door cabinets shall finish over-all 11-1/2''.

H. BASE AND FULL HEIGHT DIMENSIONS:
All cabinet ends shall have a finished dimension, front to back, of 23-1/2'' to permit alignment of adjacent ends and continuously flush recessed toe panels of full variety of types in one grouping. Over-all finished dimensions shall be: for full height hinged door cabinets 24-1/2'', full height sliding door or no door cabinets 23-1/2'', base height hinged door cabinets 24-1/4'', base height sliding door or no door cabinets 23-1/2''.

9. FINISH

Both sides of all doors and drawer fronts shall be veneered with plastic high-pressure laminate. All interior surfaces and exposed ends shall be veneered with Beautilite laminate in a pattern matching the laminate used for fronts. All outside surfaces of unexposed ends, tops, bottoms, and backs shall be covered with a balancing sheet of phenolic, moisture-resistant backing material.

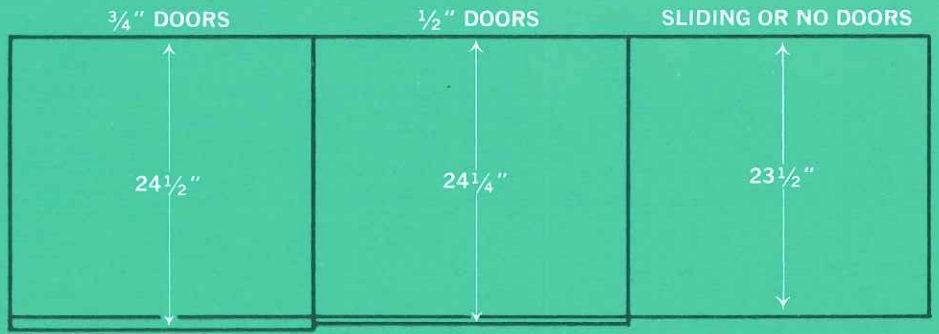
10. INSTALLATION

All cabinets and casework shall be set in place, leveled, plumbed, accurately scribed and secured to walls and/or floor. The installation shall be complete, including all trim; the casework shall be left clean and free from defects. Workmanship shall be first-class.

11. GUARANTEE

The contractor shall guarantee for a period of one year all workmanship, material and equipment furnished under this specification, while in normal use, under conditions for which materials were designed.

DEPTHS



FULL HEIGHT AND BASE UNITS VARY AS SHOWN WITH PARTICULAR DOOR APPLICATIONS. IN ANY ARRANGEMENT, CABINET ENDS AND TOE SPACES WILL ALWAYS ALIGN.
